

Travel costs hit your project P&L. Most firms find out at month-end.

Construction and engineering companies run some of the most complex travel programmes in any sector. Site visits span multiple countries and concurrent projects. Procurement teams travel to source materials. Most firms track travel by project — in Excel, from memory. The result is inaccurate project P&Ls, uncontrolled spend, and a finance team that's always a month behind.

WHAT IT'S COSTING YOU

✘ **Travel not allocated to project codes**
inaccurate project P&Ls on every fixed-price contract

✘ **Site visits booked outside policy**
cost overruns that come out of your margin

✘ **Emergency site travel at panic rates**
significant cost premium with no protocol to control it

✘ **No real-time traveller location**
duty of care gaps on remote and international sites

WHAT CHANGES WITH BIZAWAY

Project-coded booking

Every flight, hotel, and transfer assigned to a project code at point of booking. Your PM dashboard shows travel spend per project in real time — not reconstructed at month-end.

Site visit management

Set per diem policies by site location. Engineers stay within the approved property list and spend limit automatically — no exceptions.

Multi-project dashboard

Running 5, 10, or 50 concurrent projects? See travel spend across all of them on one screen. Filter by project, team, or geography.

Emergency site travel

Equipment failure. Safety incident. Urgent client visit. BizAway and TED respond immediately, 24/7. Your engineer is on the next available flight within the hour.

BizzyFlex

Client tender dates move. Inspection schedules shift. Cancel any booking up to 3 hours before — 80% refund, no penalty.

Real time.

Project spend — live

2 wks

Live & running

No IT project needed

24/7

Human support

TED — always on

ALREADY WORKING IN CONSTRUCTION IN MENA

BizAway manages corporate travel for Footprint Real Estate, RAK Properties, Peikko Middle East, and Mar Marine & Building Contracting across the UAE and wider MENA region.

THE BASICS

- ✓ No setup fees. No licence fees. You pay per booking, nothing else.
- ✓ Up and running in 2 weeks — no disruption to active sites.
- ✓ No long-term contracts — month-to-month from day one.
- ✓ Unlimited project codes — no limit on concurrent projects or cost centres.
- ✓ GDPR-compliant — employee and contractor data at European standard.

✔ **No setup or licence fees**
Pay per booking — nothing else

📅 **Live in 2 weeks**
No IT project, no integration

🎧 **24/7 human support**
TED — always on, always human
